Get to know Pegaso International

*A degree from
Pegaso International
is an excellent way
to start
your future career.*

Established in 2015 in Malta, Pegaso International is a Lifelong Learning Higher Education Institution providing a wide range of online degree programmes accredited by the Maltese National Commission of Further and Higher Education with Licence n. 2016-001.

Pegaso International is member of a network of universities aiming at providing international students worldwide with a flexible, inclusive and accessible education.

Pegaso International is the educational model of the future: open, suitable for all, inclusive and flexible. It delivers an online multilingual educational offer aimed at ensuring more job opportunities worldwide and the possibility of achieving advanced qualifications in the most requested study fields.

Thanks to its flexible didactic

methodologies and an innovative technology in distance learning, Pegaso International aims to satisfy the demand for academic education in every corner of the world.

Thanks to its strategic location between Sicily and North Africa, the unique island of Malta was chosen in order to best promote the development of Mediterranean South Area through Lifelong Learning.

In line with this mission, Pegaso International has been involved as institutional member in the international networks of EMUNI and UNIMED, actively participating in their activities in order to share knowledge and improve understanding among professionals from e-learning universe as well as foster policies and good practices throughout Europe and beyond.

Pegaso International's great challenge arises from Malta, thanks to its strategic political and cultural function in the Euro- Mediterranean area.

We aim to build and disseminate a platform of knowledge under a global perspective, investing more in education, in basic training and in life-long learning with a focus on the outlook for the future. Our digital technologies can foster equality of opportunity and ensure social integration. It is only by creating alternatives and thus conditions of education, training, employment and social welfare that we create a fertile ground for dialogue and peace. Pegaso International is facing a competitive and global challenge: we are working hard at our best to succeed in our ambitious project.

Prof. Luigia Melillo, Rector

Your path at
